COLLINS COVE SAILING

My Name is Charles Collins. I am the owner of Collins Cove Sailing. I come before this board to ask permission and advice as to how we made come to a solution to operate a small sailing passenger boat in the Yaquina Bay loading and unloading from the Ports docks.

In concept it is a really simple idea. To take guest for an hour to 90 min boat ride for \$10 bucks. Having lived here for 15 years, I have watch this attempted many times. I I feel that providing an Ocean Experince in the North Pacific Ocean is what does not work. Even the mighty Hawaiian Cheiftain gave up and did river tours. I have been working with Arron Bretz with the Port of Newport on loading ideas. And that is the porpose of this meeting. To see IF... there is a compromise to the location of this event. What I propose is to load at South Beach at a designated location that we all can agree apone. And to on occasion, load on the North side next to the YBYC small boats across from the OBF boat house. These events would be limited to YBYC events as we currently do and with the Maritime Museum events. The agencys I am currently working with are:

Cindy Boldgrgen Oregon Marine Board

Marty Richman of Anchor Marine for a 2 million dollar policy

Arron Bretz of Port of Newport for ideas and dircetions

Brian Getting of Oregon Boating Foundation

Joe Ray of Oregon Coast Bank

Thomas Wislon EA for accounting

And The Secretary of State for State Licencing Issues. (Since Mr. Richersons passing, I have not had the opperuinty to move forward)

The S/V Blanco, a Catalina 30 is presently moored at the Embarcadero in a slip we own. So docking is not an issue.

In conclusion...I am asking for permission, advice and direction before applying for a special use permit. As the financial are a considerable investment, I would like to see this locked in before moving any farther forward.

Thank you for your time.
